

WRD Spider Line FN9 Series

WRD-FN9

Constructed with a high-density 12-carrier braiding configuration, the FN9 Spider-Line minimizes surface friction to reduce drag in tough adhesives.

OUTPROX

Highlights:

- Highest tensile-to-diameter ratio
- Concentrates 535 Lbs breaking strength into a 1.18mm profile
- Maintains structural integrity to sever hardened urethane without binding

Technical Specifications:

- Up to 12 removals per length
- Tensile Strength: 535 Lb
- Diameter: 1.08 - 1.18mm
- 12-carrier solid braiding construction
- Heavy duty abrasion resistance coating
- Optimized for WRD Removal Systems

Available Sizes:

- **FN9** - 315 feet (96m) - no marked lengths
